

Do business faster by automating agreements without ever leaving Salesforce.®

Many companies have modernised their customer relationship management (CRM) with Salesforce. Yet most still prepare, sign, act on, and manage customer agreements via manual, disconnected processes. The result is delayed deals, increased rework from errors, higher costs, and poor customer and employee experiences.

Agree better.

The DocuSign Agreement Cloud™ for Salesforce® is a suite of products that enables you to digitally transform your sales and other business processes by streamlining agreements: Generate and redline. Send for signature. Capture customer information during signing. Store captured information and the completed agreement back with the Salesforce opportunity. And do all this while keeping your Salesforce users in Salesforce.

Use cases

Sales contracts

(MSAs, SOWs, NDAs, quotes, invoices)

Services approvals

Human resources

(Compensation plans, offer letters)

Financial services and insurance

(New account openings, account servicing)

Public sector

(Case management)

Healthcare/Life Sciences

(Patient consent)

Benefits

Save time

Cut agreement turnaround time to hours or minutes.

Reduce risk

Eliminate tedious, manual tasks that may result in errors and increased risk.

Increase productivity

Automate workflows to help employees work more efficiently without leaving Salesforce.
